Description of Work To Be Performed

The following is the current schedule of activities and anticipated completion dates. Any circumstances that may alter the dates further should be discussed with the OSC.

- Provide internet service.
- Provide potable water service for the office.
- Provide security guards for off-hours, including weekends, holidays and Site closures due to the holiday week.
- Provide for waste management of on-site operations.
- Continue destruction of spent and soiled totes.
- Consolidate all empty containers into one area and crush.
- Continue the consolidation of solids left in containers following removal of liquids.
- Continue preparing containers for shipment.
- Consolidate tires into one area of the Site.
- Generate waste profiles and prepare materials for transport and disposal under T&D Subcontract #4.
- Provide EPA with a list of all potential transportation and disposal facilities so that Off-Site Rule Compliance checks can be completed.
- Coordinate with subcontractor the proper removal of wastes identified under Subcontract #4 to appropriate disposal facilities.
- Conduct appropriate measures for the removal and disposal of soiled PPE, metal, and debris.
- Commence removal of all remaining containerized wastes outlined in Subcontract T&D #4.
- Situate the drum crushing operation as to not contaminate surrounding soils.
- Review metal recycling firms in the Glassboro area to determine recycling options.

Continue to provide OSC with 1900-55's, off-site hour reports, and daily activity reports. **Draft 1900-55s shall be delayed no more than 2 weeks of services.**

Follow Region 2 Green policies to include recycling of paper waste. Follow recommendations outlined in Region 2 *Clean and Green* Policy. This includes authorization for additional electrical charges which are supplemented by alternative energy sources.

Ensure the Health and Safety of all Kemron personnel on-site.

I certify that the above work is ordered and authorized in the performance of the above cited Task Order.
